EDITOR'S PREFACE

In this issue, five original papers are presented. Two papers were selected from *International Conference on Biotechnology (ICB) 2012*. This conference highlighting the theme 'Biotechnology-Bridging Biodiversity to Industry' brought academics, researchers and industry partners to share and discuss basic biotechnology-based research as well as those aimed at industrial applications on 13th to 14th November 2012 in Bogor, West Java, Indonesia. Three papers were original papers.

It is hoped that this issue will make a good reference material and be of great use for life sciences.

June, 2013
