Author Contributor Lists **(Kalpataru Vol. 32 No. 1 dan 2, 2023)**

Adana Presti Ariyanto

Student of Archaeology Major, Faculty of Cultural Science, Udayana University, Bali, Indonesia 2019.

Agus Karyanantio

Geologi UGM angkatan tahun 1979, memiliki pengalaman luas di bidang geologi dan survei kebumihan, bekerja di P.T. R & P Drilling dan sebagai freelance geologist.

Alifah

Completed a bachelor's degree in archeology at Faculty of Cultural Sciences UGM in 2021, and continued her master's studies in the same department in 2017. Young Researcher at the National Research and Innovation Agency, Research Center for Archaeometric. Research focus in the Prehistoric Archeology and Archaeobotany

Ati Rati Hidayah

Completed a bachelor's degree in archeology at Faculty of Cultural Sciences, Udayana University, Bali in 2006 and continued her master's studies in the Gadjah Mada University, in the Archaeology department in 2017. Young Researcher at the National Research and Innovation Agency, Research Center for Archaeometric. Research focus in the Prehistoric Archeology and Archaeobotany.

Azhari Fitra Nasution

Lecturer in Geological Engineering at the Medan Institute of Technology, and currently a teaching staff at the Mining Engineering Institute of Science and Technology TD Pardede.

Cosimo Posth

Cosimo Posth focuses his research on the genetic reconstruction and dispersal history of archaic and modern humans through the DNA analysis of ancient human remains. After studying Natural and Anthropological Sciences in Florence (Italy), Cosimo Posth received his doctorate from the University of Tübingen in 2016. In his doctoral thesis he was able to show that early modern humans and Neanderthals admixed more than 200,000 years ago. He also revealed population expansions and contractions of European hunter-gatherers during the last Ice Age. Subsequently, he started his post-doctoral research activity at the Max Planck Institute for the Science of Human History in Jena (Germany) where, in 2019, he became leader of the Human Paleogenomics group. Since April 2020, he is appointed Junior Professor for Archaeo- and Palaeogenetics at the University of Tübingen and Senckenberg Centre for Human Evolution and Palaeoenvironment in Tübingen (Germany).

Dominik Bonatz

Dominik Bonatz is a Full Professor at the Institute of Ancient Near Eastern Archaeology/ Faculty of History and Cultures/ Freie Universität Berlin/ Germany. since 2003 Director of the Institute of Ancient Near Eastern Archaeology at the Faculty of History and Cultures, Freie Universität Berlin/ Germany. Since 2011 Spokesperson for the Interdisciplinary Center "Ancient World", Freie Universität Berlin/Germany.

Fakhri

Born in Ujung Pandang on April 5 1981. Studied Bachelor's and Master's degrees at the Department of Archaeology, Faculty of Cultural Sciences, Hasanuddin University. Currently pursuing Doctoral Archeology Education at the Postgraduate Program at the Faculty of Cultural Sciences, University of Indonesia. In 2016, he was appointed as the first researcher at the Ministry of Education and Culture, Makassar Archaeological Center office and actively carried out collaborative research with both domestic and foreign institutions. Since 2021 until now he has joined as a Young Expert Researcher at the Archaeometric Research Center, Archaeological, Language and Literature Research Organization, National Research and Innovation Agency. Taking expertise in Holocene Prehistory, research carried out in the last five years has focused on survey and excavation activities from middle Holocene Period sites in Sulawesi. Apart from leading field research, he also carries out desk studies and laboratory studies, especially related to human skeletal remains with deepening expertise in the field of bioarchaeology.

Fathimatuz Zahro

Student of Archaeology Major, Faculty of Cultural Science, Udayana University, Bali, Indonesia 2019.

Gauri Vidya Dhaneswara

Completed a bachelor's degree in Anthropology at FIB UGM in 2010, completed a bachelor's degree in psychology at the Faculty of Psychology, Mercu Buana University in 2010. Worked as an ASN at the Central Kalimantan Provincial Government.

Harry Octavianus Sofyan

Harry Octavianus Sofyan, Indonesian archaeologist, work as a junior researcher at National Research Centre of Archaeology - the National Research and Innovation Agency (BRIN). Interest with trade, exchange of ancient metals and state development in Southeast Asia. Graduate from Archaeology departemen Gadjah Mada University, Indonesia for undergraduate program and MNHN (Museum national d'Histoire Naturelle) - Paris, France for Master Quaternary and Prehistory program. Since 2020 continue as a Doctoral student at Nanterre University, Paris - France in Ecole doctorale Espaces, Temps, Cultures (ED395)

Hartatik

Completed his bachelor's degree in archeology at FIB UGM in 1995, continued his master's studies in Natural Resources Management at Lambungmangkurat University, completed in 2014, South Kalimantan. Principal Expert Researcher at the National Research and Innovation Agency, Research Center Research Center for Environmental, Maritime and Sustainable Culture Archaeology.

Hendri A.F. Kaharuddin

Hendri A. F. Kaharudin is a PhD candidate at the Australian National University, specializing in the exploration of maritime subsistence strategies employed by communities in the Indo-Pacific throughout the Pleistocene and Holocene epochs. His research delves into the intricate dynamics of how people sustained themselves in these regions over millennia. Engaging in extensive fieldwork, Hendri has been involved in research on numerous islands such as Java, Lombok, Kisar, Lembata, Alor, Treweng, Wetar, and Obi.

Hirofumi Matsumura

Hirofumi Matsumura is a physical anthropologist in the School of Health Science, Sapporo Medical University, Japan. During a 30-year research career, he has worked on numerous excavations in

East/Southeast Asia. His bioanthropological analysis of archaeological skeletal remains has focused on prehistoric human migration, with particular emphasis on population history and movement during the Neolithic transition in Mainland and Island Southeast Asia.

Hubert Forestier

French prehistorian, a specialist in stone tool analysis in Southeast Asia (lithic technology and typology). His Ph.D. (1998) focused on lithic artifacts from Javanese prehistoric sites in Indonesia, where he lived for more than 10 years. He has led numerous research projects, excavations, and scientific cooperations in Southeast Asia, notably Cambodia, Thailand, China, Laos, and Indonesia. He works as Professor of Prehistory at the Museum National d'Histoire Naturelle (Paris, France).

Ipak Fahrani

Born in Fakfak, on October 19, 1968. Completed a bachelor's degree in the Archeology study program, Faculty of Letters, Hasanuddin University, Ujung Pandang, in 1991. Currently working at the Prehistory and History Research Center, ABASTRA Research Organization, BRIN (Research Agency and National Innovation), as a researcher since 2022.

Kathrin Nägele

As an archaeogeneticist I work with archaeologists and linguists in the Pacific and the Caribbean to integrate our results for a better reconstruction of the human history in both regions. I am especially interested in how the Oceans connect populations, and how we can challenge old narratives and perceptions of the past.

Marlin Tolla

Born in Sorong, Papua on November 26 1992. Completed Bachelor's degree in archeology study program, Faculty of Cultural Sciences, Hasanuddin University. Works as a researcher at the Papua Archaeological Center. Currently completing studies at the Institut für Vor- und Frühgeschichtliche Archäologie, University of Hamburg, Hamburg, Germany.

Mohammad Ruly Fauzi

Archaeologist born in Jakarta in 1985. Obtained a Bachelor's degree from the Department of Archaeology, Faculty of Humanistics, University of Indonesia in 2008 and a Master's degree in Quaternary Prehistory in 2011 at the Università degli Studi di Ferrara, Italy. Currently working at the Research Center for Archaeometry-BRIN and actively publishing research results on Indonesian prehistory.

M. Wishnu Wibisono

He completed his bachelor's degree in Archaeology and currently pursuing a master's degree in Archaeology at Gadjah Mada University. He works as a freelance researcher and owns a company for a cultural consultation agency.

Nenggih Susilowati

Nenggih Susilowati was born in Surabaya in 1967. He completed his Bachelor of Archaeology at Udayana University in 1991, and Master of Communication Science at Muhammadiyah University of North Sumatra in 2016. In 1997, I worked at the National Archaeological Research Center, then at the Medan Archaeological Center in 1999, since 2022 as a prehistoric researcher at the Research Center for Prehistoric and History Archaeology, BRIN.

Ni Luh Gde Dyah Mega Hafsari

An archaeology researcher at the National Research and Innovation Agency, Indonesia. She currently pursuing a master's degree at the Research Master of Archaeological Science at Leiden University, the

Netherlands. Her research focuses on the reconstruction of the palaeoenvironment, with specialization in zooarchaeology and stable isotope analyses.

Nugroho Nur Susanto

Completed a bachelor's degree in archeology at FIB UGM in 1997. Associate Expert Researcher at the National Research and Innovation Agency, Research Center for Environmental, Maritime and Sustainable Cultural Archaeology.

Restu Budi Sulistiyo

Born in Kebumen in 1983. Alumnus of Bachelor of Archeology from Gadjah Mada University and currently pursuing a Masters in Biology Education at Lambung Mangkurat University. Was involved in the excavation project to save the Trowulan Site with the Directorate of Antiquities, Ministry of Culture and Tourism in 2009 and was actively involved in archaeological research in the Kalimantan region with the South Kalimantan Archaeological Center, Ministry of Education, Culture, Research and Technology from 2014 to 2021. In In 2022, he officially joined the Archaeometric Research Center, Language and Literature Research Organization, National Research and Innovation Agency and was active in the functional position of Young Expert Scientific Data Analyst with a focus on archaeomalacological studies.

Sunarningsih

Completed a bachelor's degree in archeology at FIB UGM in 1995, continued his master's studies at Leiden University, the Netherlands in 2011. Young Expert Researcher at the National Research and Innovation Agency, Research Center Research Center Archaeometric Research Center

Taufiqurrahman Setiawan

Completed his bachelor's degree in archeology at FIB UGM in 2007, continued his Master's studies in Masters in Archeology UGM, completed in 2016. Currently he is a Young Expert Researcher at the National Research and Innovation Agency, Center for Archaeometric Research. The focus of the research carried out is Prehistoric Archeology and Geoarchaeology

Truman Simanjuntak

Born 27 August 1951 in Pematangsiantar, North Sumatra. He worked as a researcher at the Yogyakarta Bureau of Archaeology until 1986. After obtaining a Ph.D. from the Museum National d'Histoire Naturelle (Paris, France), he worked at the National Research Center for Archaeology from 1992 until his retirement in 2016. He founded the Center for Prehistory and Austronesian Studies (CPAS), a non-governmental research and development institution. He was awarded the Sarwono Award by the Indonesian Institute of Sciences (LIPI) in 2015. He is still actively giving lectures and advises international researchers and the National Board of Cultural Heritage Experts.

Vida Pervaya Rusianti Kusmartono

Senior Researcher in Archaeology at the National Research and Innovation Agency of the Republic of Indonesia. She has been focusing her research on the reconstruction of the peopling of the rainforests in Kalimantan from the Late Pleistocene to the Early Holocene and emphasizing the survival strategies and movements of its inhabitants. For the past ten years, Vida has carried out extensive research in the regions of the Upper Kapuas River and published papers in international and national journals.

Vivi Sandra Dewi

Born in Bulukumba, South Sulawesi on August 29 1995. Completed a Bachelor's degree in the Archaeological Studies program, Faculty of Cultural Sciences, Hasanuddin University in 2017.

Currently working at the Prehistoric and Historical Archeology Research Center, National Research and Innovation Agency as a Research Results Analyst since in 2022.

Yasmin Lana Amara

Student of Archaeology Major, Faculty of Cultural Science, Udayana University, Bali, Indonesia, 2019.
